

mesoestetic[®]

Pharma Group

mesoestetic® Pharma group:

Since it was created in 1985, in **mesoestetic®** we understand skin care as a science based on clinical evidence, rigour and excellence.

We develop cutting-edge medical-cosmetic solutions, resulting of years of research and supported by demonstrated results, for the most demanding experts in skin care.

Because we are scientists at the service of beauty and this element makes us unique.

Today, as a world leading company in the field of aesthetics and cosmetic medicine, we continue to be committed to our values that have brought us to this point and draw the roadmap of the future.

Excellence

We are obsessed with quality and accuracy in everything we do. We develop all our products under pharmaceutical quality standards.

Pharmaceutical facilities authorised by the Spanish Agency of Medicines and Medical Devices.

Certificates of quality management systems for each activity we develop: ISO 9001:2008, ISO 13485:2012 and ISO 22716:2007.

Innovation

We believe that innovation, through science and technology, is the road to the development of professional solutions and safe, effective, complete aesthetic treatments.

Annual re-investment of 40% of the profits in R&D&i projects.

Commitment

We are committed to provide safety, clarity and confidence to the world of beauty.

The research and development of medical-cosmetic solutions are our commitment, it is beyond what we do, it is what we are.

Expansion

Since our foundation, we have developed solutions designed around global needs. Today we export 85% of our production to over 90 countries, thanks to our international partners with which we continue to adapt our global view to each market.

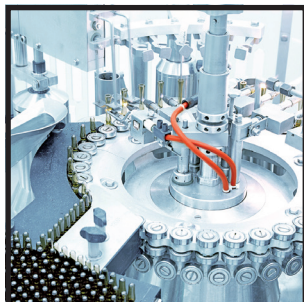

Development areas

PRODUCTION AREAS

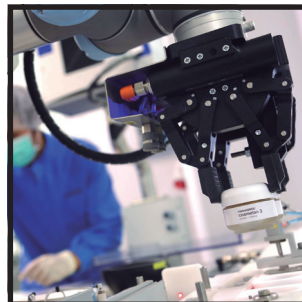

Medicinal products

Development and manufacture of medicines for topical administration for the field of cosmetic medicine and dermatology.

Medical devices

Development and manufacture of medical devices (class III) for intradermal administration with CE marking of conformity, quality assurance, safety and efficacy. Development and marketing of medical-cosmetic devices with CE marking under the strictest quality standards for both software and hardware.

Cosmeceuticals and nutraceuticals

Wide experience in the pharmaceutical development of cosmeceutical and nutraceutical products aimed at professionals in the medical-cosmetic field and the end user. Developed with active ingredients of proven efficacy, at concentrations higher than a conventional cosmetic and with unique formulations for the maximum therapeutic response.

RESEARCH AREA

Biotechnology Unit

Performing techniques and studies related to genomics and proteogenomics.

Performing tests with cell cultures for the purpose of discovering and developing active ingredients with a higher efficacy.

R&D on systems of vehiculation, sustained release and active ingredient dosing and development of biomaterials and devices with a more advanced structure and functionality.

Medical follow-up and observational control unit

In-house medical team that performs safety and efficacy tests thanks to techniques *in vivo* that complement and are coordinated with the studies *in vitro* performed by the Biotechnology Unit.

In mesoesthetic we believe that interdisciplinary treatment provides a therapeutic approach without limits that can meet any skin need, from professional and medical treatments to products for home use.

Medical range

mesoestetic makes available to professionals of cosmetic medicine and dermatology a wide range of solutions formulated uniquely, which allow to correct effectively and individually disorders of the face and silhouette.

PIGMENT CONTROL PROFESSIONAL SOLUTIONS

dermamelan® is the intensive depigmenting treatment with high concentrations of active ingredients, designed for use solely by medical professionals. It provides a corrective action over pigmentation imperfections, while regulating melanin overproduction. Its dual action makes it a unique, integral treatment for a complete, effective result.

PIGMENT CONTROL INTIMATE PROFESSIONAL SOLUTIONS

dermamelan® intimate is a depigmenting solution with a dual intensive, corrective action that regulates pigmentation imperfections, developed specifically for the genito-perineal and perianal area. Visible results after a single clinical session. Developed in collaboration with specialists in gynaecology.

PEELING MEDICAL SOLUTIONS

mesopeel® MD is a new generation of medical peels designed to treat major skin conditions effectively and predictably. Combined solutions that combine safety, certified pharmaceutical quality and solid clinical evidence. Three monosubstance references complete the range for a comprehensive, versatile and modular approach.

INTRADERMAL MEDICAL SOLUTIONS

mesohyal™ is the largest range of medical devices for intradermal administration (Class III) with CE marking for performing combinable, safe, effective aesthetic treatments. Unique formulations based on hyaluronic acid and selected active ingredients of known therapeutic efficacy, for the treatment of multiple facial, body and hair indications.

DERMAL FILLER MEDICAL SOLUTIONS

mesofiller® is the range of dermal fillers with cross-linked hyaluronic acid developed using a unique technology: densiMatrix® technology, which ensures maximum quality, safety and efficacy in the clinical practice.

INTIMATE FILLER MEDICAL SOLUTIONS

dermal fillers with specific rheological profiles to moisturise and restore women's intimate area adapting to the viscoelastic properties of each application area.

ANTI-BLEMISH PROFESSIONAL SOLUTIONS

blemiderm® is the anti-acne medical solution for the intensive treatment of acne and seborrhoea-prone skins. Its formula with the unique active ingredients m.acne complex™, with synergistic and transversal action that acts simultaneously on the different factors predisposing to acneic skins, provides them cleansing and integral renewal.

Professional range

We offer cosmetic professionals a large arsenal of solutions for performing treatments adapted to each patient. Specific protocols comprising the stages of prevention and preparation, the treatment and the final stages of maintenance and follow-up.

ANTIAGING PROFESSIONAL SOLUTIONS

age element

age element® is the integral antiaging professional treatment that combines customisation and the most advanced cosmetic technology in a unique treatment formulated with epigenetic active ingredients.

ANTIAGING BRIGHTENING PROFESSIONAL SOLUTIONS

ANTIAGING FIRING PROFESSIONAL SOLUTIONS

ANTIAGING ANTI-WRINKLES PROFESSIONAL SOLUTIONS

ANTIAGING REDENSIFYING PROFESSIONAL SOLUTIONS

GLOBAL ANTIAGING PROFESSIONAL SOLUTIONS

global eyecon professional treatment which allows to correct multiple imperfections of the eye contour: wrinkles, under-eye circles and bags and sagging of the upper eyelid with cumulative results visible since the first session.

mesoéclat multifunctional treatment that promotes cell renewal, increases radiance, moisturises in depth and improves elasticity and firmness, for a smoother, softer and more even skin.

PIGMENT CONTROL PROFESSIONAL SOLUTIONS

cosmelan® is the intensive depigmenting professional treatment that provides a corrective action over pigment imperfections, while regulating melanin overproduction. Its dual action makes it a unique, integral treatment for a complete, effective result.

BODYCARE PROFESSIONAL SOLUTIONS

bodyshock® is a 100% customisable integral solution designed to treat the main body alterations in an individualised way. The in-cabin treatment is accompanied by a home routine to maximise results.

PEELING PROFESSIONAL SOLUTIONS

mesopeel® is the most advanced range of peeling solutions to treat the main aesthetic concerns. Four innovative formulas that combine chemoexfoliating agents with a proprietary peptide with regenerative action. Versatile and modular solutions essential to complete and enhance multiple aesthetic treatments.

ACTIVES PROFESSIONAL SOLUTIONS

meso.prof is the most complete line of solutions and active ingredients in sterile ampoules for transdermal application for the treatment of face, body and hair cosmetic concerns

PROFESSIONAL SOLUTIONS

mesoestetic® has specific products grouped by indication in platforms such as **cleansing professional solutions**, **moisturising professional solutions**, **sensitive skin professional solutions**, **photoprotection professional solutions** or **antiblemish professional solutions**.

Consumer range

mesoestetic has a wide range of innovative products aimed at the end consumer with the most recent advances of the industry and taking the knowledge of the professional and medical channel to home treatments.

CLEANSING SOLUTIONS

A new generation of facial hygiene products, that provides an effective cleansing action, enhances pH and flora balance in the skin and protects the skin against environmental pollution.

MOISTURISING SOLUTIONS

Solutions to restore optimum hydration levels with products adapted to the needs of all types of skin to return to it full functionality, smoothness, elasticity and a healthy, bright look.

ANTI-BLEMISH SOLUTIONS

Full line of products to treat oily and acne-prone skin, developed with specialist dermatologists and formulated with last-generation oil-regulating, exfoliating, keratolytic and anti-microbial active ingredients.

PIGMENT CONTROL SOLUTIONS

Depigmentation solutions and treatments that help maintain the spot under control and prevent the appearance of new spots.

SENSITIVE SKIN SOLUTIONS

Solutions specifically developed to soothe and smooth the reactive signs related to skin sensitivity and return comfort and well-being to delicate, sensitive or sensitised skin.

PEELING SOLUTIONS

Home solutions that accelerate skin renewal thanks to the presence in formula of exfoliating ingredients at specific concentrations, which allow to renew the skin to reduce imperfections, refine texture and enhance its brightness and radiance.

PHOTOPROTECTION SOLUTIONS

mesoprotect® is the innovative range that offers the most advanced, complete photoprotective technology, adapted to all types of skins.

HAIR CARE SOLUTIONS

tricology is the anti-hair loss treatment with repairing and revitalising action that acts on the hair and scalp to stop loss, enhance growth and strengthen it, for improving its quality and amount and returning to it a healthy, bright look.

BODYCARE SOLUTIONS

Home care solutions for the intensive treatment of the main silhouette alterations. Formulas with innovative application systems that maximise results and optimise effectiveness.

age element®

age element® is a comprehensive anti-aging treatment. Its formulas can be combined together to specifically address the main concerns of aging: loss of brightness, loss of firmness and the appearance of wrinkles and fine lines.

ANTIAGING BRIGHTENING SOLUTIONS

Facial treatment that provides revitalised and radiant skin, at the same time as it attenuates signs of fatigue and dullness. Its powerful antioxidant action is able to effectively neutralise the negative impact of free radicals and oxidative stress, which cause the appearance of the signs of ageing.

ANTIAGING FIRMING SOLUTIONS

The first cosmetic lifting inspired by the most advanced medical-aesthetic procedures. It boosts the synthesis of structural elements of the skin such as collagen and elastin to combat flaccidity, lack of elasticity and define the facial oval.

ANTIAGING ANTI-WRINKLES SOLUTIONS

A new cosmetic concept designed to relax facial contractions, reduce wrinkles, restore firmness and plump the skin. It provides a facial remodelling effect to ensure a tightened skin, with a reinforcement of the skin's thickness and structure.

GLOBAL ANTIAGING SOLUTIONS

Transversal antiaging action solutions designed to combat the main signs of aging by indication, regardless of the degree of aging.

Medical and cosmetic devices

The combination of the latest technologies with the best cosmeceuticals. Medical-cosmetic devices with the most effective technologies: Mesotherapy, Carboxytherapy, Microneedling, RF (radiofrequency) CAP / RES and Electrophoroporation.

...mct injector

mesotherapy + carboxytherapy = mesocarboxytherapy

mct injector is a unique injection gun that combines in the same device two complementary techniques: mesotherapy and carboxytherapy. A convenient, versatile medical device that comprises high-technology components, with the objective of ensuring the maximum control on treatment application.

GENESIS

It is the only medical-cosmetic device in the world that uses **Smart-Drivity™** technology.

The smart fusion of 4 technologies together with the pharmacological effect to achieve dramatic results from the first session.

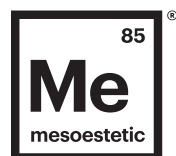

Painless, non-invasive and side effect-free treatments. Providing complete solutions, both for the face and the body.

m.pen^[pro]

The perfect synergism between the microneedling technique and the active ingredients. Device developed to achieve dramatic results safely and effectively. For all types of skins and in any body area. With a penetration from 0.25 mm to 2.5 mm and with 5 different speeds to adjust it to the area to be treated.
