antiaging
solutions

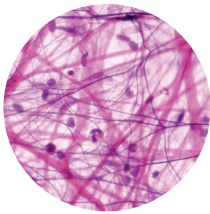

the element for skincare experts

Skin aging

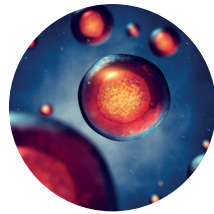

Skin aging is a progressive and multifactorial process, which begins at the cellular level in the different layers of the skin, significantly affecting its appearance and functionality.

Internal or biological factors:

Change in the biochemical and molecular mechanisms that lead to loss of functionality.

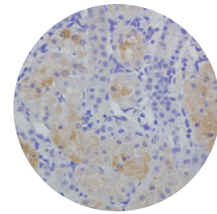

Degradation of collagen and elastin fibres

Slowing of the cellular metabolism

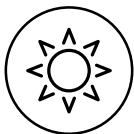

Damage to DNA

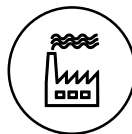

Weakening of the barrier function

External or environmental factors:

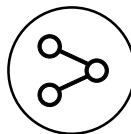

- > Exposure to UV rays
- > Diet, tobacco and alcohol
- > The environment and climate

UVA/UVB/HEV/
IR rays

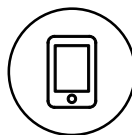

Environmental
Pollution

Ozone

Sleep
disorders

Artificial light
sources (HEV)

Smoking

Eating
habits

Chemical agents
(unsuitable cosmetic
ingredients,
medication, etc.)

Stress

Visible signs of aging:

skin spots

Pigmentary alterations that are visible on the skin intensify over time, and they can appear earlier as a result of exposure to solar radiation and visible light.

dull skin

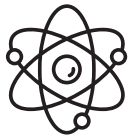

Skin renewal slows down, and it manifests in the form of lower skin luminosity and a less uniform tone.

wrinkles and loss of firmness

Loss of tissue elasticity and turgor manifests itself in the form of expression lines, wrinkles, sagging and loss of definition of the facial oval.

lack of nourishment and moisture

Lipid oxidation weakens the cohesion of the epidermal barrier, reducing the skin's capacity to maintain an optimal state of nourishment, moisture and protection.

Specific active ingredients to treat different degrees of aging

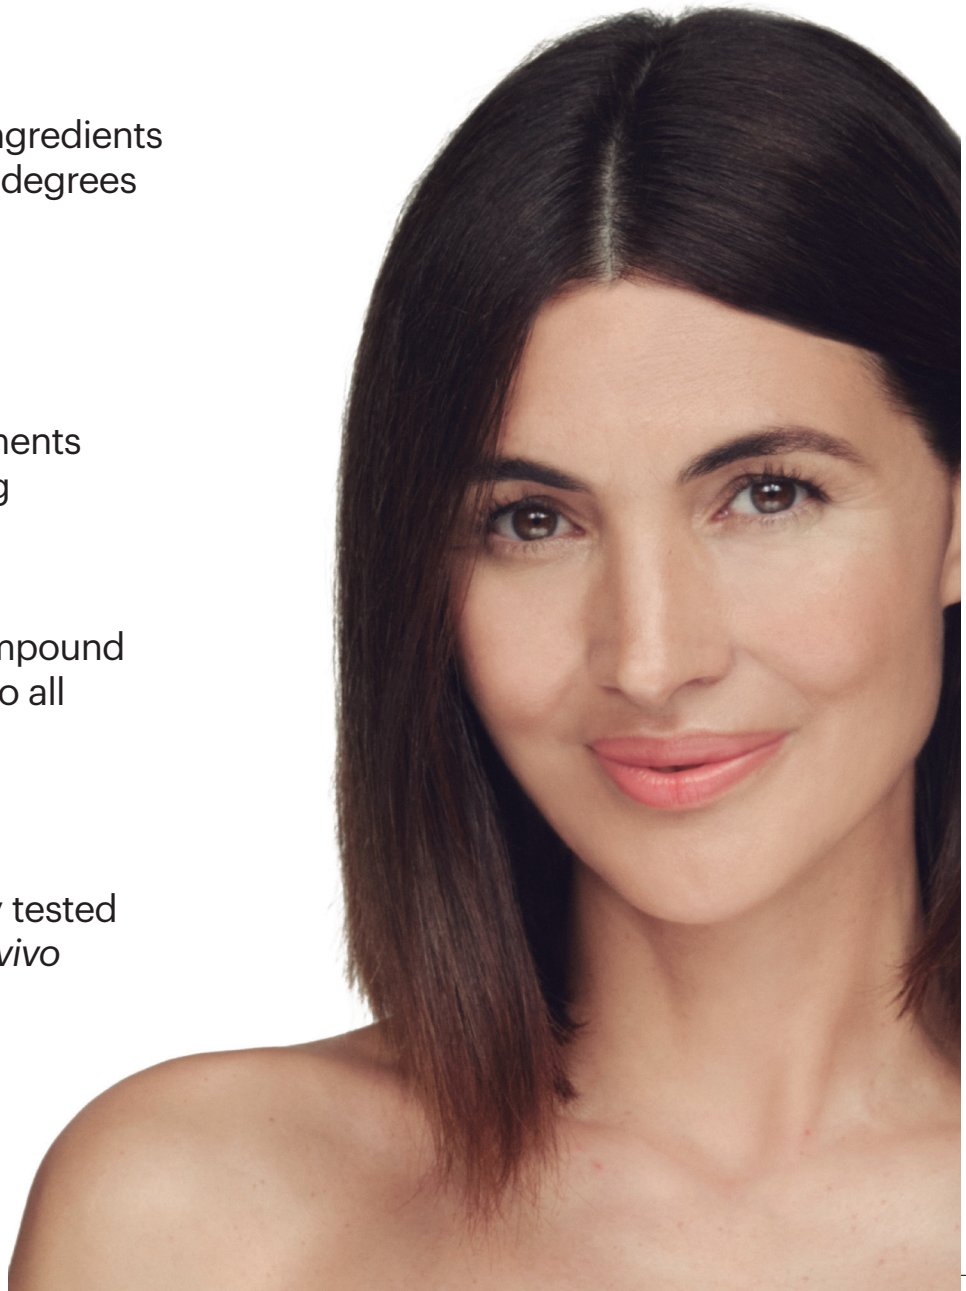

Preventive and corrective treatments for signs of aging

Textures and compound formulas suited to all skin types

Dermatologically tested formulas with *in vivo* efficacy

⌘ global antiaging solutions

A range of complementary antiaging solutions that prevent and correct the signs of aging at any age.

PREVENTION

aox ferulic

ampoules

Night regenerative
antiaging

All skin types

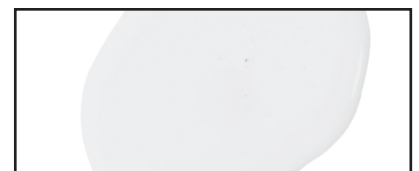

APPLICATION

**Ferulic acid, ascorbic
acid and protech-cell
complex**

**Idebenone, croton
lechleri extract and
hyaluronic acid**

**Melatonin, glutathione
and antioxidant
enzyme**

Formulas suited to all skin types and combinable to maximise the results obtained in your cosmetic routine.

CORRECTION

skinretin® 0,3%

Intensive repair
antiaging

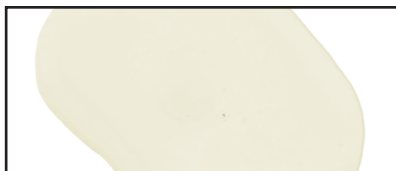

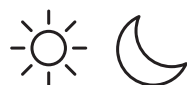

**Retinol, bakuchiol,
lactococcus ferment
lysate, centella asiatica,
ectoine**

proteoglycans
ampoules

Nourishing and
relipidant antiaging

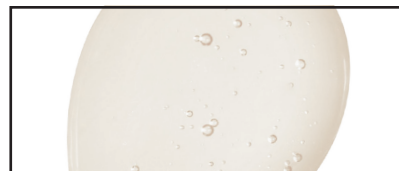

**Proteoglycans, vitamin C
and vitamin F**

antiaging flash
ampoules

Lifting effect

**Collagen, elastin and
mimosa tenuiflora extract
and plant-based proteins**

⌘ global antiaging solutions

skinretin® 0,3%

Intensive antiaging night cream with regenerative and renewing action. Brightens and revitalises the skin.

GLOBAL INTENSIVE

Global anti-ageing complex that revitalises the face and comprehensively treats any degree of aging, attenuating wrinkles and expression lines with adjustable efficacy and safety.

Apply at night every other day during the first 2 weeks; if the tolerance to the product is good, apply daily.

50 ml airless container

formula:

0.3% pure retinol

Stimulates the synthesis of collagen, elastin and fibronectin. Benefits the cell renewal process and improves skin texture.

0.7% bakuchiol

Plant-based retinol with high tolerance on the skin.

Lactococcus ferment lysate

Post-biotic complex with a regenerative action that stimulates epidermal growth. Balances and protects the skin microbiota.

Centella asiatica + ectoine

Repairing active ingredients that soothe and reinforce the barrier function.

IN-CABIN TREATMENTS

mesoéclat

FLASH EFFECT

Intensive antiaging treatment with flash effect. Results visible after the first session and cumulative with the progression's treatment.

It combines multiple aesthetic categories:
peel + concentrate in ampoules

Salicylic acid
Azelaic acid
Allantoin
Urea

Organic silicon
Glycosaminoglycans
L-carnitine
Thioctic acid

5 sessions

global eyecon

EYE CONTOUR

Professional specific treatment to combat the signs of aging and fatigue in the eye contour: wrinkles, expression lines, under-eye bags and circles and the upper eyelid drooping.

Visible and cumulative effects from the first session.

It combines multiple aesthetic categories:
peel + transepidermal solution

Salicylic acid
Azelaic acid
Lactic acid
Phytic acid

Citric acid
Sweet clover
Rutin
Glabra extract

6 sessions

skinretin 1%

Intensive antiaging cream with regenerative and renewing action. Brightens and rejuvenates the skin. Ideal as an adjuvant for pre- and post-procedures in different aesthetic/medical treatments.

Revitalises the face and attenuates all signs of skin aging.

Pure retinol at 1%

Centella asiatica

Vitamin E

Panthenol

COMPLEMENTARY TREATMENTS: ANTIAGING PROFESSIONAL SOLUTIONS

5 sessions

age element

100% customisable antiaging professional treatment with the patented technology [meso]epigen system™, which combats aging from its origin thanks to epigenetic science.

It acts by modulating various epigenetic mechanisms. Its exclusive combination of active ingredients increases cell longevity, protects and repairs

DNA and improves cell performance, providing a firmer, brighter and visibly younger skin. ^{19,20,21,22}

BRIGHTENING SOLUTIONS

LUMINOSITY

Revitalising protocol indicated to combat the first visible signs of chronoaging and photoaging.

It restores the luminosity in dull skin and immediately moisturises.

Keratolight™ enzymatic peel
Phytic acid
Vitamin C
Niacinamide

FIRMING SOLUTIONS

FIRMNESS

Firming protocol with lifting effect indicated to combat flaccidity on the face and redefine the facial contour.

Promotes skin vitality and elasticity.

Celltech™
[meso]lift complex™

ANTI-WRINKLES SOLUTIONS

WRINKLES

Protocol with anti-wrinkle action
Smoothens the skin surface, attenuating wrinkles and expression lines.

Corrects the onset of wrinkles and prevents them from appearing.

Chronoprotect™
Acetyl hexapeptide-1
Pigments soft focus

REDENSIFYING SOLUTIONS

REDENSIFYING

Protocol with redensifying and nourishing action. Provides turgor and flexibility.

Redefines the facial oval and nourishes the skin in depth.

SmartCell™
Hyaluron4D™
nutritional complex rich in essential fatty acids

GLOBAL ANTIAGING SOLUTIONS

Versatility in antiaging treatments to act globally on all signs of skin aging.

Formulas designed to treat more precisely each of the manifestations of aging.

Antiaging efficacy backed by *in vitro* studies and visible *in vivo* results

Exclusive combinations of active ingredients aimed at maximising antiaging results in skin, based on the indication.
