**beyond
facial
cleansing**

the element for skincare experts

The skin surface:

The stratum corneum is an inside-outside communication barrier and an essential protective barrier. Skin health and condition depend on its balance.

Factors affecting skin balance:

□ The microbiota

A correct skin flora balance is essential for a protected, healthy skin.⁽¹⁾

□ The hydrolipidic film

Natural water-oil emulsion that protects the skin from external aggressions and prevents dehydration.⁽²⁾

□ pH

Indicator of acidity level. The physiological level of the skin is around 5.5.⁽³⁾

External factors

Everyday the stratum corneum is exposed to oil, dirt, sweat, particulate pollutants, traces of make-up and microbes, all of which directly affect the skin balance with visible consequences:

Loss of brightness,
dull tone

Clogged pores,
imperfections

Oxidation, premature
aging

Irregular texture

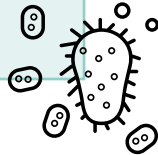

✦✦ Cleansing solutions:

mesoestetic has developed a new generation of solutions to offer the latest innovation in facial hygiene, going beyond the cleansing action itself:

✦✦ Bio-balancing formulas

The microbiota

An innovative active ingredient acts on the skin flora to preserve the barrier and defence function against pathogenic micro-organisms.

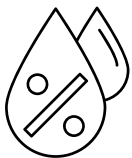

Balanced pH

Formulas with physiological pH to preserve and maintain the balance of the acid mantle.

✦✦ Anti-pollution protection

A major threat in our everyday lives and needs specific treatment to neutralise the impact on our skin.

✦✦ Formulas designed for each skin type

Specific textures and active ingredients adapt to each skin type to achieve the optimum water-oil balance.

✦✦ Tested efficacy

All our products have studies *in vitro* and *in vivo* to support them.

✦✦ High skin safety

All products undergo rigorous dermatological testing to ensure their tolerability and safety.

✦✦ Cleansing solutions:

A range of products supported by the latest innovation in active ingredients and pharmaceutical forms.

eyes and lips

✧✧ Cleansing solutions:

hydracream fusion

Balancing, anti-pollution cleansing facial cream-oil. It provides nourishment and hydration to the skin, leaving it beautifully smooth. **Dry and sensitive skin.**

NOURISHING, RELIPIDANT

Rich in **squalene**, a vegetable oil in harmony with the skin providing nourishment and elasticity perfectly absorbed into the tissue without leaving any oily residue.

Spread evenly over the dry skin, leave on for a few seconds and massage until the texture becomes oily. Rinse with water.

100 mL tube

brightening foam

Creamy cleansing foam with AHA's. Renewer, rebalancing and anti-pollution. **Normal and combination skin.**

RENEWER, BRIGHTENING

The presence of **glycolic acid**^(4,5) and **lactic acid**⁽⁶⁾ at a low concentration allows to improve skin texture, quality and brightness.

Apply over the damp skin and massage until it becomes a soft foam. Rinse with water.

100 mL tube

purifying mousse

Balancing, anti-pollution cleansing facial foam. Enhances unclogging of pores and prevents imperfections. **Oily and acne-prone skin.**

PURIFYING, KERATOLYTIC, REFINING

The antiseptic action of **chlorhexidine** is combined with **salicylic acid**⁽⁷⁾ and **lactic acid**⁽⁸⁾ to enhance unclogging of pores, improve texture and prevent skin imperfections.

Apply over the damp skin and massage gently. Rinse with water.

150 mL foamer bottle

hydratonic mist

Balancing, anti-pollution, moisturising facial mist toner. Completes facial hygiene and potentiates the balance of the skin microbiota. **All types of skin.**

MOISTURISING, REGENERATING, SMOOTHING

Its formula combines the wetting and smoothing action of **rose water**, with **panthenol** (pro-vitamin B5)⁽⁹⁾ to regenerate and soothe for optimal skin comfort.

After the cleanser, spray over the face at about 15-20 cm. Remove using a cotton pad or tissue.

125 mL spray bottle

micellar biphasic

Biphasic make-up remover formulated for high tolerance in the eye and lips. Gently removes dirt and make-up, even if waterproof without leaving an oily residue. **Eyes and lips.**

BIPHASIC MAKE-UP REMOVER, VERY HIGH SMOOTHNESS

Contains micelles to trap dirt and make-up smoothly. Containing sunflower seed oil to effectively remove the most stubborn make-up and leave the skin feeling smooth.

Shake the container and soak in a cotton pad. Apply over the eyes and lips, with outward movements.

150 mL bottle

COMMON BENEFITS OF THE RANGE

BIO-BALANCING ACTION

A post-biotic active ingredient, **Lactobacillus Ferment**, obtained from fermentation of a bacterium, enhances the balance of the microbiota to strengthen and preserve the skin barrier function in optimum conditions.⁽¹⁰⁾

Each formula has a **slightly acid pH** that preserves balance and keeps the skin protected from unwanted pathogenic micro-organisms.

ANTI-POLLUTION ACTION

A biotechnological active ingredient, **Urban D-tox**, offers a dual action on the effects of pollution on the skin: jointly removing the particulate pollutants and reducing oxidative stress known to speed up skin aging.

Complementary novelties: masks & peels

☾ Peeling solutions:

ultimate micropeel

Micro-exfoliating treatment that exerts a smooth renewing action on the skin surface to remove dead cells, refine texture, smooth out imperfections and immediately enhance facial radiance.

EXFOLIATING AND RENEWER

The combination of **AHA's⁽¹¹⁾ with an enzyme exfoliant** provides a weekly exfoliating, renewing action on the skin surface to show a smoother, softer and brighter skin.

BIOBALANCING + ANTI-POLLUTION ACTION

Apply over the previously clean skin. Shake the container and soak a cotton pad. Spread over the face, insisting in the areas with greater texture or thickening. Rinse with water.

150 mL bottle

⬆️ Anti-blemish solutions:

pure renewing mask

Intensive purifying mask. Exfoliates and cleans the pore to prevent and reduce imperfections.

PURIFYING, OIL-REGULATING

The **white clay** provides an immediate cleansing action by absorbing excess oil and glares from the skin surface.

KERATOLYTIC, ANTI-BLEMISH

The synergism of **salicylic acid, mandelic acid^(12,13) and sodium lepagilate^(14,15)** provides a comedolytic, refining, anti-bacterial, and anti-blemish action.

PHYSICAL EXFOLIATION, REFINING

With biodegradable **cellulose particles**, for a modulable mechanical exfoliating action that helps unclog and refine pores.

BIOBALANCING + ANTI-POLLUTION ACTION

Apply a large layer of product over the previously clean skin and allow to dry for 10-15'. Once dry, remove with water, massaging the exfoliating particles, insisting in area T. Rinse with plenty of water.

100 mL tube

Sensitive skin solutions:

anti-stress mask

Intensive mask that soothes and relieves skin with redness and sensitivity.

SOOTHING, ANTI-INFLAMMATORY, ANTI-REDNESS

With ***Rhodosorus marinus* extract** and **saffron flower**, that act on the signs of the inflammatory condition, skin sensitivity and redness.

A soothing plant complex combining ***Aloe vera*, chamomile and marigold**, with regenerating, soothing and smoothing action.

BIOBALANCING + ANTI-POLLUTION ACTION

Apply a large layer of product over the previously clean, dry skin and leave on for 10-15'. Remove the remaining product with a sponge or wet wipe.

100 mL tube

Moisturising solutions:

hydravital mask

Intensive moisturising mask for dry and dehydrated skin.

INTENSIVE MOISTURISING

The combination of **hyaluronic acid** with ***Viola tricolor* extract** allows immediate high-quality hydration and a more efficient, homogeneous hydration.

RELIPIDANT, NOURISHING

Argan oil, rich in omega 3 and 6 aids the recovery of lipids essential to skin comfort, balance and defence.

SOOTHING

Panthenol (pro-vitamin B5) provides a regenerating, soothing and anti-redness action, that prevents and avoids skin flaking and irritation.

BIOBALANCING + ANTI-POLLUTION ACTION

Apply a large layer of product over the previously clean, dry skin and leave on for 10-15'. Remove the remaining product with a sponge or wet wipe.

100 mL tube

✧ Safety and high tolerance

Skin safety and tolerance of our products are rigorously tested by independent experts:

Dermatologically tested

All our solutions are subject to a 'Patch test', a tolerability test monitored by a dermatologist that ensures skin compatibility with each of the products.

Hypoallergenicity

This test extends the sensitivity test by repeating nine times within three weeks the 'Patch test', also monitored by a dermatologist. Passing it ensures maximum tolerance. Particularly aimed at sensitive and sensitised skin.

Comedogenicity

Test of use that is performed over oily and acne-prone skin. In more frequent application, a dermatologist evaluates if occlusions and lesions occur after 28 days of use in the study areas.

Ophthalmologically tested

Test of frequent use in the periocular area or in the eye mucosa, where the patient reports his/her feelings and an ophthalmologist evaluates possible unwanted irritation or reactions. Passing it involves optimum tolerance in the eye mucosa and in the eye contour.

CLEANSING SOLUTIONS

Latest-generation facial hygiene range that combines innovation and results with a sensorial pharmaceutical form

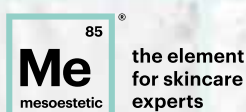

Formulas developed to meet the differentiated needs of each skin type.

Provides skin flora and pH balance, two parameters key to maintaining and preserving optimum skin condition and its barrier function.

With anti-pollution benefits to remove particulate pollutants and protect the skin from this external aggressor.
